27 August 1965

MEMORANDUM FOR: Chief, Imagery Analysis Division

SUBJECT: Paper Print Enlargements for Photo Interpreter's Use.

1. There has been apparently some interest expressed by IAD personnel for the P.I. to have the capability to produce paper print enlargements of selected target coverage. To verify and define this possible requirement, it is requested that you inform us of the anticipated applications of enlarged paper prints, the technical parameters desired for such prints and the urgency of this requirement.

2. The technical requirements should include: (1) the format sizes of films which may have to be printed; (2) enlargement factors; (3) an indication of the resolution and range of gray scales desired; (4) type of process, e.g., positive-to-positive, negative-to-positive, or both; (5) enlargement sizes; and (6) the desired printing time.

Colonel, USAF
Assistant for Plans and Development
